Mr. S. R. Morss
R3
Bradford, Mass.

Dear Mr. Morss,

This is to verify your reception of WPME P^unxsutawney, Pennsylvania on Feb. 23, 1953 at Bradford, Mass. Your report has been checked and found to be correct.

WPME operates on 1540 kilocycles with 1000 watts of power, non-directional daytime only.

Our transmitter is located along the Punxsutawney-Brookville Road 2 miles NW of town. The antenna is 320 feet high.

I am indeed sorry I couldn't get to answer all the DX mail sooner. I have been quite busy. Many thanks for your fine report.

Best of DX,

Joe Pelletier

Chief Engineer
