January 15, 1991

Dear Mr. Morss,

Thank you for your interest on WALE. You were correct in everything you heard. It all agrees with our program log. "All talk all the time" is the logo we use on our 50,000 watt talk station. We are directionalized so our signal stays South of Boston in order to protect Canadian stations. So it is rare you will hear us with a good transmission.

Please feel free to contact me if I may be of any further help.

Very Truly Yours,

Frank Battaglia,
President.
