Dear Stan:

I'm pleased to verify your correct report of WHJJ on 15 August 1980. Yours was our first report in, by the way. The transmitter facilities are the same as when the station was WJAR so signal levels should be the same.

The station will unfortunately be NSP as it was in the past, but if a test comes along on 920 I will probably choose the same time for "maintenance".

Regards,
