My dear Mr. Morss:

Many thanks for your fine letter of July 20, 1948. I am pleased to inform you that your report of our program activities for the times mentioned, as sufficiently accurate, to definitely establish a fact that you listened to Radio Station W A C A in Camden, South Carolina on July 20th.

Perhaps you would be interested to know the names of the staff here:

R. O. Darby, Jr.	General Manager
R. T. Fairey, Jr.	Sales Manager
M. E. Morris	Chief Engineer
Mrs. R. T. Fairey, Jr.	Traffic Manager
Carolyn G. Moore	Bookkeeper-Receptionist
Frank Funderburk	Chief Announcer
David Sullivan	Announcer

We are using a Gates BC-1-E - 1000 watts transmitter, and a "Sky-Line" 190' vertical radiator. The transmitter is located about four miles south of Camden, South Carolina. Our operating schedule is 6:00 A.M. until sun-down week days, and 7:00 A.M. until sun-down on Sundays. W A C A went on the air for the first time on July 23, 1948, so you can see that we are very young, and we hope, in the near future, to be able to send you a placard verifying your report.

Thanks again for your interest, and best wishes from the entire staff of W A C A.

Yours very truly,

R. O. Darby, Jr. /cm
