

Station WMUU

1000 WATTS — 1260 KC

BOB JONES UNIVERSITY • GREENVILLE, S. C.

September 24, 1949

Mr. S. R. Morss
Route 3
Bradford, Massachusetts

My dear Friend:

We were very happy to receive your report of reception of WMUU. The broadcast you described and the times you gave agree closely with the data recorded in our log.

On September 15 we went on a full-time schedule of daylight broadcasting. We have authority to operate on 1260 kcs with 1000 watts. We have had very good reports of reception in this area. WMUU is owned and operated by Bob Jones University in Greenville, South Carolina. Bob Jones University is a Christian university standing firmly for the fundamentals of the Christian faith.

Thank you for your report of our broadcasting. We wish that you could be among our daily listeners. Best wishes as you continue your DX listening.

Sincerely yours,

Don C. Smith
Chief Engineer

DCS:nr

P. S. We are very sorry that we did not confirm your report sooner, but as I am sure you will understand, the many details of the opening of our new station have prevented us from doing so earlier.
