

WDEF

THE STATION OF PUBLIC SERVICE

CHATTANOOGA, TENNESSEE

February 18, 1943

JOE ENGEL, PRES.

FRANK S. LANE, GEN. MGR.

Dear Mr. Morss;

We received your DX communication, and certainly appreciate your kindness in informing us of your reception. It is gratifying to know that on occasion we can get out that distance. Even 250 watts can do strange things at times can't they?

We do not have any DX cards, so we are doing the only things left to us under that condition, and sending you this acknowledgment on our letter-head.

Thank you again.

Sincerely,

W.D.E.F.

Cecil McCoy Barton
Eng. in charge
