COOKEVILLE, TENNESSEE

1 December 1943

Mr. S. R. Morss  
R 3  
Bradford, Massachusetts

Dear Mr. Morss:

I am glad to confirm your reception of WHUB on November 25 during our monthly frequency check broadcast. The program lasted from 2:30 to 3:00 AM CWT.

The transmitter here at WHUB is an RCA 250K. The transmitter power amplifier consists of two type 810's operated in parallel. The Modulator tubes are two type 828's operated in push-pull class B. The transmitter feeds directly a Wincharger 180' guyed vertical radiator.

I sincerely appreciate your report and trust that I have given you the information which you desired.

Very truly yours,

*Charles Burch*
