Bradford, Mass.

Dear Sir:

This is to confirm your reception of Radio Station
K B G O, in Waco, Texas, October 18, 1962

We have a four tower directional array, with different patterns for Day and Night operation. We operate with a power of 1,000 watts on the day-time pattern and 500 watts on the night-time pattern, on a frequency of 1580 kc.

May we express our appreciation for your informative letter.

Sincerely,

K B G O RADIO

Gene Garrison
Chief Engineer
