Ralls, Texas

S. R. Morss
R.-3 Bradford Mass. 01830

Dear S. R.,

It is with pleasure that I confirm your reception of my special broadcast January 30, 1967. Your log was complete and accurate, and there is no doubt that it was my signal that you heard.

I have received reports from Alaska, Canada, plus nearly every state in the union and I really appreciate your report. Ralls is located about 26 miles east of Lubbock on highway 82.

Please excuse the date of this confirmation. I have had technical troubles plus about a million other things to do since I ran the test. I hope you are not too put out, and I shall look forward to hearing from you again in the future, and I will try to answer sooner. Thanks Again!!

Sincerely Yours,

Paul Taylor
