Mr. S.R. Morss
Route 3
Bradford, Mass.

Dear Mr. Morss:

Thank you very much for your very kind letter and it was this station you were receiving.

We were making the yearly proof of performance check for the FCC and in conjunction with that were running experimentally from 2:00 AM until 3:00 AM on January 30, 1953. For among the few times since 1938 I found someone who said my voice level was below that of the music... and it took a Mexican station to do that I guess.

To my surprise you stayed on after the Spike Jones "I went to Your Wedding". I thought that would be enough to run most anyone off.

Again our thanks for your reply, especially as your particular part of the country has seldom been heard from on these experimental broadcasts. Wish I had a big Texass steak to send along as well, but I doubt if it would keep.

Very truly yours,

Tom Fleet, Mgr.
Asst. Engr.
