

RADIO STATION

KELP

The Paso Broadcasting Co.

P. O. Box 1768
EL PASO, TEXAS
Oct. 13, 1947

Mr. S. R. Morss,
Rt. No 3
Bradford, Mass.

Dear Sir:

This will confirm your reception of KELP the morning of Oct. 3, 1947. We were on with a frequency check program and used only voice doing this period. The tone must have been from other sources. How ever the times of the call announcements are correct.

We use Raytheon equipment to feed one thousand watts into a 250 ft. tower located just east of El Paso and in the old river bed.

Thanks for your report.

Yours Very Truly,

Jesse M. Neil, Jr.
Jesse M. Neil, Jr.
Chief Engineer.
