Dear DXer's:

It was a pleasure for us here at Radio KIENN, "990", to broadcast the DX test program on December 6th, 1955 from 2:30 to 3:00 PM (CST), and thank you DX Clubbers for making it possible.

~~(All)~~ (All) the information contained in your letter verifying reception of our program is correct and we enjoyed reading your interesting letter. We are pleased and even astonished how our little 250 watt "Coffee Pot" broadcast extended into the far corners of our country - which is proven by letters from you DXer's.

Thanks again for your response and from all of us to all of you, a very Merry Christmas and a prosperous listening year.

Sincerely,

Ed C. Balthrope
