ON YOUR DIAL

Dec. 19, 1962

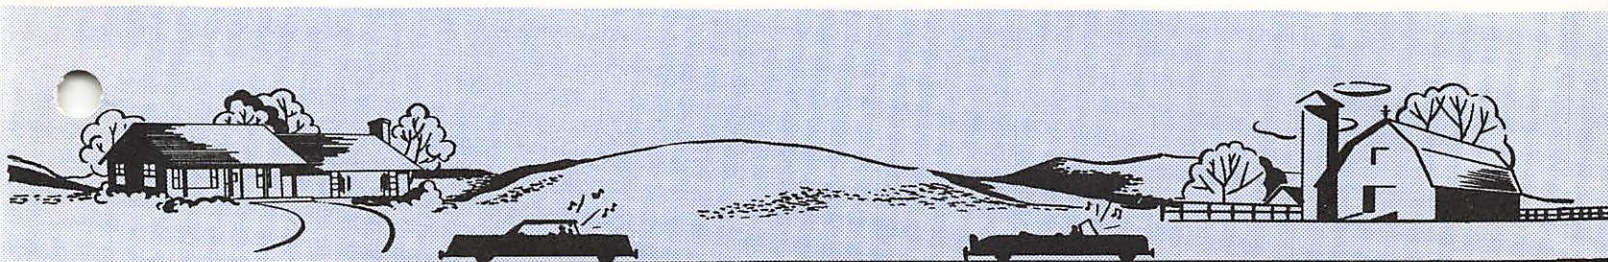

Mr. Stanwood R. Moress  
R.F.D. 3  
Bradford, Massachusetts

Dear Sir:

Happy to affirm your reception dated Feb. 3, 1962. I was not the engineer, here at that time, but I will return this answer. We are non-directional, our power is 500 watts, our normal broadcasting is from sunrise to sunset. Our next door neighbor is the Gulf of Mexico, which makes good signal strength for you D X'ers. Thanks for so much patience.

Yours truly,

*Robert L. Starnes*
