Mr. S. R. Morss
R-3
Bradford, Mass.

Dear Mr. Morss:

This will confirm your reception of Radio Station KIWW, on the morning of November 25th, 1951. As you know, this was a special test program, in which all DX'ers were invited to listen.

Your letter reporting our station signal is very much appreciated. KIWW uses 250 Watts, with a 186 ft. guyed, uniform cross section tower - non-directional.

Thanks very much for your letter, and kind personal regards.

Sincerely,

GOOD NEIGHBOR BROADCASTING CO.

L. E. Richards,
Station Manager and
Chief Engineer.
