Bradford, Mass.

Dear Mr. Morss:

We are very happy to furnish this letter as a **verification** and **confirmation** of your reception report, dated June 3, 1946.

You caught one of our frequency checks we are running nightly in lieu of having a frequency monitor.

The tests will continue regularly for a while after we commence broadcasting our regular programs -- around June 15.

With regards.

Very truly yours,
John Thorwald
