SECY.-TREASURER

Mr. Stanwood R. Morss
R. R. No. 3
Bradford, Mass.

Dear Mr. Morss:

Thank you for your report on the reception of KULP on the morning of March 4th. Your report checks with our log so please accept this as verification. Upon checking through our files I find that you submitted a report previously on the reception of KULP. The report was not initialed so I do not know whether you received verification on that report or not. Some of the reports were answered by my assistant. In the event you did not receive verification on this first report I want to apologize for the slip-up as your report was correct.

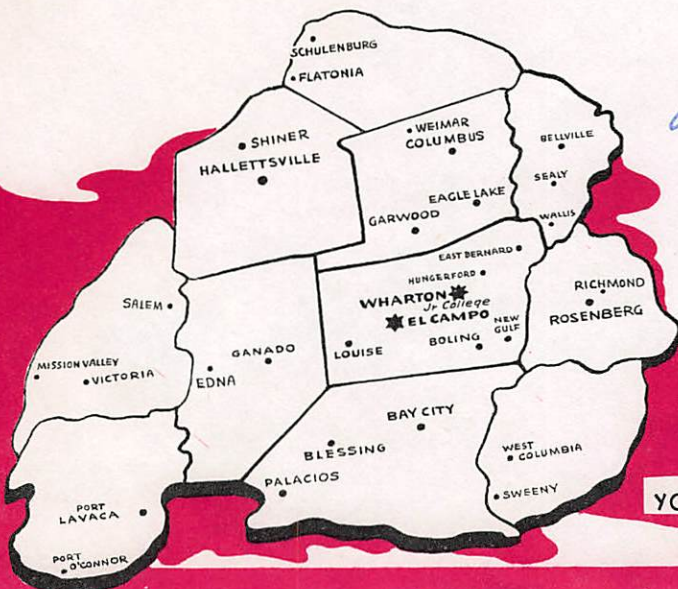

We are using Collins equipment here with the exception of the turntables, which are Presto, and the monitors, which are General Radio. The transmitter is a Collins 20T and is series-fed to a guyed antenna that is 200 feet high overall.

Thanks again for the nice report and best of luck in your DX efforts.

Very truly yours

Joe H. Miller
