AMERICAN BROADCASTING COMPANY  
TEXAS STATE NETWORK

FRONTIER BROADCASTING COMPANY \* WACO, TEXAS

January 2, 1948

Mr. S. R. Morss  
Rt. #3  
Bradford, Mass.

Dear Mr. Morss:

This will confirm your report of reception of our signals on December 20, 1947.

We are not normally on the air at this time of night, but we were on this occasion broadcasting a special Christmas program. I was very much interested to know it was received in your part of the country. Our signal was weak because you are located in a weak sector of our directional pattern.

We thank you for the DX report and hope to hear from you again.

Sincerely yours,

Jesse H. Dove  
Chief Engineer  
Radio Station W A C O
