Mr. S. R. Morss

Route #3

Bradford, Mass.

Dear Mr. Morss:

We are very pleased to verify your reception report of February 5, 1950 ( Sunday morning ). Your log indicated the reception of our equipment test that morning. We are sorry to have waited so long to send you a verification, but we have been busy getting started here.

Quite a few of the reports we received mentioned the fact that WTOR Torrington, Conn. was on at the same time.

In case you are interested, our frequency check time is the Second Wednesday at 2:30 and 2:45 am EST.

Thanks for the report,

Best wishes,

W B L T  
Wm. A. Banton, Tech.
