Dear Sir:

This will serve as a verification of your reception of our station on the morning of April 12, 1947, while we were on the air for a frequency check.

We are glad that you were able to log us and we hope to hear from you again sometime soon.

It might interest you to know that you are the first DX'er that we have heard from and yours is the first confirmation that we have sent out. We do not have a regular time for frequency checks or I would pass this information on to you.

Yours Very Truly,

John L. Hughlett, Jr.
Chief Engineer
