Bradford, Mass. 01830

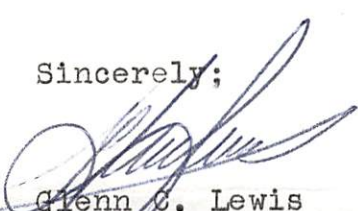

Thank you for your kind letter, sir.....

We appreciate hearing from people around the country who are able to hear WTID. My Chief Engineer turned your letter over to me, and it's my pleasure to confirm your reception of WTID, Jan. 9.

We have, in recent weeks, put into operation a new transmitting tower, 415 in length, and have greatly strengthened our signal. In the future, we are hoping for further expansion of WTDD.

Again, thank you for writing.

Sincerely;

Glenn C. Lewis
Operations Manager
WTID
