TELEPHONE 2373

STAUNTON, VIRGINIA
December 14, 1946

Mr. S. R. Morss
Route 3
Bradford, Mass.

Dear Mr. Morss:

This will verify your report of reception of WTON during our special DX program on the morning of November 18, 1946 between the hours of 0353 and 0407 EST. The announcements and musical selections listed in your report have been checked against our program log and found to be correct.

Thank you very much for your nice report and I hope that you will find this verification to your satisfaction. We were very interested in the information you were able to supply us in regard to our signal strength and quality.

Just in case you might be interested in the kind of equipment we have down here, I will pass the information along. The transmitter and studio console are of composite construction. The transmitter feeds a 180 ft. Lingo vertical radiator.

Everyone here at WTON extends their best wishes for a Merry Christmas and continued good luck in your DXing in the coming year.

Sincerely,

Radio Station WTON

Rex C. Houser
