Dear Su's

Thanks for sending the tape of our station. You aren't the only one who send a reply of this nature. A fellow from Conn. contacted us early this summer and fall. on 250 watts apparently you also recieved us on the same. Your operation reminded me of the older days and of some of the stories my grandfather told me of his younger day since he is an amature operator W1NWW too.

Yours truly

Brad Hanson
