Mr. Stanwood R. Morss
RFD 3
Bradford, Massachusetts 01830

Dear Mr. Morss:

This letter acknowledges and verifies that you received WYKR's signal between 12:01 a.m. and 2:30 a.m. on November 17, 1977. Maximum power to our shunt fed 300' folded unipole tower was 762 watts.

Normal broadcast hours of WYKR are 6:00 a.m. to 10:00 p.m. (7:30 a.m. to 9:00 p.m. Sundays). Our signal tends to be stronger to the North and Northeast due to antenna location. Any other listeners are in for a tough time.

Thank you for your interest in WYKR and reporting reception of our signal. Another DX special will be scheduled after the holidays.

Sincerely,

Timothy E. Westman
Chief Engineer
