March 2, 1953

Stanwood R. Morss
RR No. 3
Bradford, Mass.

Dear Sir,

We wish to thank you very much for your verification letter of our DX program. We are making improvements in our equipment and from time to time we will be on after midnight in the near future, and we hope that all the members of your club will let us know how well we get out.

Our equipment is as follows; RCA 250G Transmitter, 170 Ft. Tower. This transmitter has been in use since 1937, not at this station untill 1950.

Thanking you again for the letter.

David L. Dodd
