Mr. S. R. Morss  
Route #3  
Bradford, Massachusetts

Dear Mr. Morss:

This is to acknowledge and verify your reception of our frequency check program, 3:00 to 3:30 A.M. Central War Time, Monday February 7th, 1944.

Each month on the first Wednesday, (this month was an exception) we conduct our regular frequency check with The Commercial Radio Equipment Company, 921 East Gregory, Kansas City, Missouri. Our station is owned and operated by The Upper Michigan-Wisconsin Broadcasting Company Incorporated, and is operated on a federally assigned frequency of 1400 kilocycles. WATW is operated by Gates 100-A All American equipment, and is transmitted via the Shunt-Fed method, on an authorized power of 100 Watts.

Ashland, known as "The Garland City of the North" is situated overlooking beautiful Chequamegon Bay. Our city is wholly an ore exporting port, and boasts the largest ore docks in the entire world.

We extend to you the invitation to listen in some future date to our Regular Monthly Frequency Check, conducted on the first Wednesday of every month, from 3:00 to 3:30 A.M.
