

BEAVER DAM BROADCASTING COMPANY

1430 KILOCYCLES
BEAVER DAM, WISCONSIN

March 22, 1952

Mr. S. R. Morss
R. 3, Bradfor, Mass.

Dear Sir;

Thanks much for the reception report. No question it was WBEB you heard. Glad you could log us, and pleased to hear we came in good and strong.

In case you keep track, our transmitter is a Western Electric one-kilowatt job, our tower is Stainless and 195' high, and we operate daytime only and non-directional.

Thanks again for the report.

Alister S. Alexander
Chief E ngineer
