

RADIO STATION
490 KC - 250 WATTS

W O S H

O S H K O S H W I S C O N S I N

AFFILIATED WITH THE BLUE NETWORK

December 18, 1943

Mr. S. R. Morss
R-3, Bradford, Mass.

Dear Mr. Morss :

This is your letter for verification of reception of WOSH the Sunday morning of November 14th. We appreciate receiving your letter. Due to the press of other work, it has been impossible to write before.

The program listings you report are correct and hence form the verification basis for this letter.

This station will be two years old January 1st. It is located in Oshkosh, home of the World Champion All-Stars basket-ball team, Studios are located in town and transmitter just north. a shunt excited vertical radiator is used. A nother time it would be of interest to knowthe relative intensities of WJBK to WOSH, as cannot tell this from your report.

For your interest WIGM, Medford, will take the same hour, Sunday January 30th, same frequency.

Sincerely,
Nathan Williams
