Dear Mr. Morss,

This is to verify your report of reception of our test broadcast on the morning of November 6th, when we were conducting our monthly frequency measurement broadcast.

I especially am glad to be the one to answer your letter as I was the engineer on duty on the morning of the Frequency Check.

The Broadcast was tape-recorded earlier in the evening for that purpose, and we plan to use this tape next month on our next frequency check. The announcer who's voice you heard that evening was from Jersey City, Jersey.

Thank You very much for your report.
