WELCH, WEST VIRGINIA

15 Apr. 52

Mr. S. R. Morss  
R. R. #3  
Bradford, Mass.

Dear Mr. Morss:

Thank you very much for your detailed report on our March test program. You've logged us quite accurately— up to the time our signal was WHANNed.

Thank you, too, for the pictures. It's been some time since I've seen as much snow as shown in those scenes of your home. Winters here are much milder. The enclosed postcards will give you some idea of the summertime appearance of our town and country.

Should you care to tune us in again at some future time, our test programs are on the air the third Monday of each month at 3AM EST. The next one is scheduled for 21 Apr.

Thanking you again for your kind report, and wishing you the best of DX always, I remain,

Mutually yours,

*Oscar Gildemann*
