March 2, 1955.

Mr. Maurice W. Nittler,  
Box 94,  
Geneva, Nebraska.

Dear Mr. Nittler:

Thank you very much for your report on our DX program 'aired' the morning of February 21, 1955.

We are very pleased to verify every detail of your submitted report. (Pardon me - one exception - the temperature was 22° above zero, not below. Hi!)

It was gratifying to know that the signal strength was comparatively constant at all times, as well as being the strongest on that frequency.

Thanks again Maurice, for your report and general comments. We hope to hear from you again.

Sincerely,

Ken Anholt,  
Engineer, CFCW.
