Dear Sir:-

Thank you very much for your letter and report on reception of CFGP. We ran a regular DX program on December 15th and the reports from that were not very encouraging as XEG had us blanketed. We understand that XEG goes off the air New Year's morning, and if you had the opportunity to run another DX program, we will make arrangements for January 1st when XEG is off the air.

Please take this letter as our verification of your report.

Kindest regards,

Jim deRoaldes
Chief Engineer
