Dear Mr. Nittler:

Thank you for your DX report of March 7th, 1955. We have checked your listings with our programme log and find that you are correct therein.

We are very pleased to know that you were able to receive our station with such a strong clear signal and we were happy that you wrote in to tell us. We are always pleased to hear from our friends across the border.

Enclosed herewith is a booklet or two on Lethbridge and district which we trust will prove of some interest to you. Perhaps someday we may have the pleasure of a visit from you.

Thanking you again for dropping us a line and wishing you all the best in your future DX'ing, we remain,

Yours very truly,
