GREETINGS

BILL NITTLER

Thank you very much for your 'solid copy' report of WAQY. Your report agrees entirely with our logs. We operate on 1220 khz, with an output of 1000 watts. Our transmitter is a Raytheon RA-1000: 2 - 833s plate modulated by two 833s. The antenna is 210 feet non-directional vertical radiator. Reports from 'DX' make our day complete, since three of our four engineers are also ham operators.

From all of us, Thanks & 73s

73s

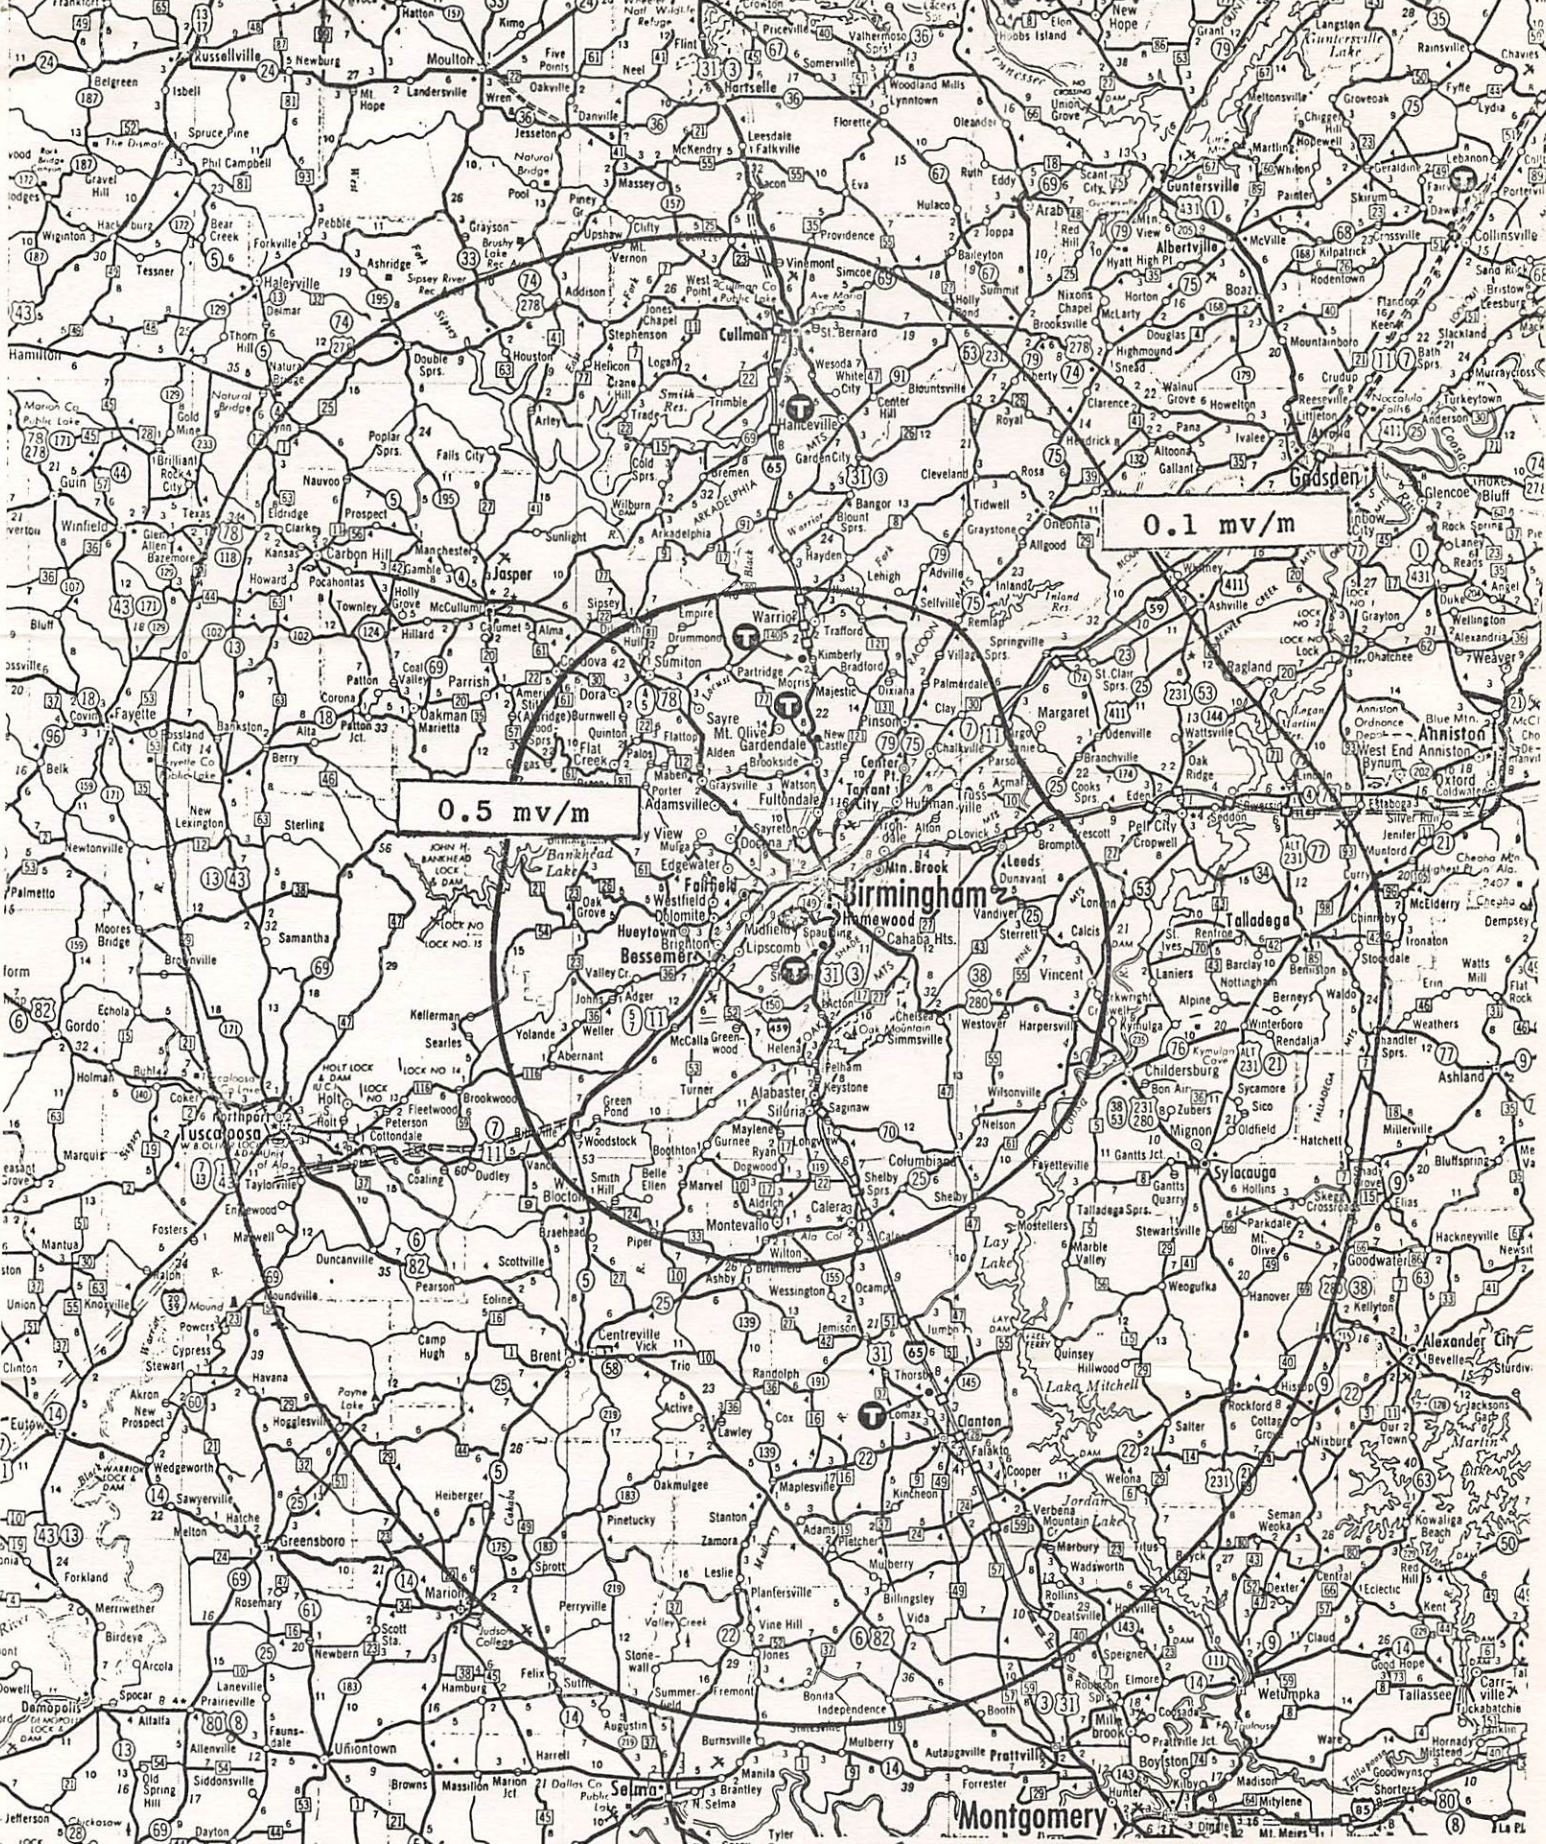

Dave Ingram, Chief Engineer, WAQY

K4HPR, JERRY

W4AVX, HERB

K4TWJ, DAVE

DEAR BILL NITZER THANKS REPORT OF RECEPTION OF WAQY ON 12 20
