Dear Sir:

Thank you for your letter reporting reception of our early morning broadcast on the morning of September 5.

In verification of your report, I am happy to provide you with the following information: Your reception was correct concerning the fact that KADL operates on a frequency of 1270 kilocycles with a power output of 5000 watts as authorized by the Federal Communication Commission in Washington, D.C.

The announcer you heard was Mac McCartney, and Pine Bluff is the Paper Capital of the world. We are a daytime station, operating during the daylight hours.

Very truly yours,

CHESTER PIERCE

Station Manager
