TELEPHONE 860 OSCEOLA, ARKANSAS  
Stuttgart, Arkansas,  
December 31st, 1955.

Mr. Maurice W. Nittler  
Box 94  
Geneva, Nebraska.

Dear Maurice:-

Thanks for your fine report of receiving our Special DX Test for the National Radio Club. Your report has been checked with our logs and found accurate, so we are happy to verify your reception of Station KOSE, 860 kc/s, 1000 watts, Osceola, Arkansas from 2:25 to 3:00 a.m. Central Standard Time on December 20th, 1955.

Jimmy Maloch and I really enjoyed running this Test. Despite the fact that a good many NRCers already had us verified, we received 36 reports, and expect more to come in. The best reception was in the East where we had several reports of S/9, and one of 25db. over! In the west, we came in poor to fair.

John Sapson and Marvin Robbins didn't make it back to Omaha in time to listen, so they tuned us in on the car Radio, and logged us on the back of a shopping bag, using match light. They even stopped at a Motel to borrow a pencil. Hi.

Thanks again, fat boy, for the swell report. Sure good to hear from you again. Be looking for another letter soon. Good luck with your future DXing, and best wishes for a Happy and Prosperous New Year.

Cordially,

  
Scooter Segraves  
DX Co-ordinator.

P.S. We haven't heard from Francis yet. Hope he heard us.
