1480 KILOCYCLES - 1000 WATTS

P. O. BOX 191  
BERRYVILLE, ARKANSAS

March 11, 1968

Mr. Bill Nittler  
P O Box 112  
Englewood, Colo. 80110

Dear Bill:

Sorry to be so long in answering your letter. It was just handed to me one day last week.

the 4th Monday between 4:30 and 4:40 A. M. is our regular monthly frequency check. We use Commerical Radio Monitoring co. out of Lee Summit, Mo. For three months we checked-out on 1480.000 KC. This time it was .3 cycle low.

Please note the letter head. This tells a little about the station. It has changed hands since this letter head and is now called K T H S, Inc. The call letters were originally assigned to HOT SPRINGS, ARK. They let them go and the station in Little Rock that is now KAAY asked for them. When they let them go we asked for them and was lucky to get our wish granted.

My handle is Dan Patterson. I have been cheif engineer for the station since it went into operation in Feb., 1958.

Hoping you hear us again this month I remain,

Yours Truly

Daniel Patterson

P. S. Unless I find some more some place this is the last letter head like this that I have.

Dan
