Dear Mr. Nittler:

This is to verify your DX report of December 10. We are always very pleased to hear from distant points and I appreciate your letter very much.

We operate at a power of 5000 watts using a RCA transmitter and 450 foot tower. There are a number of stations on 1290 kc. and it is amazing that you could even read us through the other signals.

Very best regards,

A handwritten signature in blue ink, which appears to read "Cecil E. Smith".
