

# AM 1360 K-NEWS

September 8, 1993

Mr. Bill Nittler  
Box 824  
Mancos, CO 81328

Dear Mr. Nittler,

I am happy to verify your reception of KNNS on March 30, 1992.

KNNS is licensed to Gelndale, Arizona and operates 24 hours a day at 1360 KHz with a power of 5,000 watts non-directional during the day and 1,000 watts directional (generally east) at night. We radiate from three 187-foot towers. Our studios, offices and transmitters are located at 7401 West Camelback Road in Phoenix, Arizona.

I have enclosed a daytime coverage map and some promotional items for you.

Best of luck in your QSL venture, it was QSLing that got me into the radio business and I still have a stack of QSL's I collected about 20 years ago.

Yours truly,

Kevin Curran  
Operations Manager
