Mr. Bill Nittler
Box 824
Mancos, CO 81328

Dear Mr. Nittler,

I am sorry that we did not get back to you regarding your reception report. There is no excuse on our part.

I thank you for your report dated June 7, 1985. It's good to know that our signal reached you with so little trouble. Since then KOPA changed it's format to oldies rock and roll, and B.J. Hunter is no longer with us. KOPA AM retained it's call letters but the FM changed to KSLX. KOPA AM is a 5000 watt daytimer with a non-directional antenna. I am sorry that we do not have an up to date coverage map since a field strength measurement has not been made in quite some time. WE do plan on a field strenth measurement in the near future. WE will keep your letter and report on file so we can mail you any technical reports in the future.

Thank you for listening and good luck DXing.

Sincerely,

Gary Jacques (chief engineer)
