Maurice W. Nittler
2818 South Cherokee
Englewood, Colorado

Dear Maurice;

Thank you for your letter reporting our reception in Englewood, Colorado and you may use this letter as a confirmation as we do not receive enough BCL reports to have QSL's printed. Our transmitter is a Western Electric Model 405-A1 which runs 5000 watts to a directional antenna system at night. The final uses a pair of 343-A tubes which are driven by a pair of 357-B transmitting tubes. Please do not hesitate to write us if you need any more information.

Thank you again, sincerely

Ben T. Givaudan W7IHG
