Nucla, Co. 81424

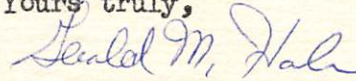

Dear Mr. Nittler:

Thank you for your letter reporting of your reception of KUUK on January 15, 1982. After going over our logs, I am most happy to report that you did pick up our signal.

KUUK is a 500 watt daytime station. We have applied to the FCC for permission to increase power to 1000 wats, and expect to have the authority by the end of March. I hope you will try again at that time, to see if our signal has improved any.

Again thank you for letting us know of your reception, and should you ever be in the Wickenburg area, please come by our studios.

Yours truly,

Gerald M. Hale
