Denver, Colorado

Dear Sir;

In reply to your welcome letter, regarding pick-up of reception on our assigned frequency, I am happy to report that your claim is verified.

Your list of our programming activities on the morning of March 9, is completely accurate.

I hope that you will be able to pick-up our signal again. Apparently, we have had a number of verifications on signal reception from your area.

Good luck in the future on scanning the Air Waves!

Sincerely yours,

*J. Mc Anera
