

Thank You

Dear Mr. Nittler ...

We received your letter regarding reception of our AM station KBRT on December 6, 1975.

You did hear K-BRIGHT... and we're pleased to know that our highly-directional 10,000 watt signal reached all the way to Mc Cook, Nebraska. That's quite a distance for us to travel, with our signal beamed basically down the Southern California coastline, and not much coverage to the east.

Happy Holidays!

Fred Seiden
