August 5, 1985

Bill Nittler
Box 724
Meeker, Colorado 81641

Dear Bill,

First, please accept my apology from our station to you. The person to take care of listeners such as yourself, has failed to do his job and thus, your letter has gone unanswered.

Thank you for your letter. Enclosed find a coverage map and bumper sticker. A note of interest; KERI will be increasing from 10,000 watts to 50,000 watts by the end of the year. Hope you will listen again sometime and drop us line.

By this letter, I verify your schedule in your letter dated May 9, 1984 to be correct. May God Bless.

In "His" Service,

June Loubey, Office Manager
