October 21, 1963

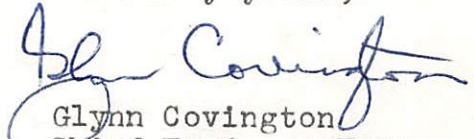

Mr. Maurice W. Nittler  
4590 So. Julian  
Englewood, Colorado

Dear Mr. Nittler:

Thank you very much for your letter of reception on Sept. 30th. You received us when we were testing our Collins 1000 Watt Auxiliary Transmitter. We normally Broadcast with a Gates 10,000 Watt Transmitter feeding into a Three-tower Directional Antenna System.

Your report was correct according to our log, but I do not have any Verification cards for our new call letters as yet, but hope this letter will suffice for your records. Thank you again for writing.

Sincerely yours;

Glynn Covington  
Chief Engineer, KGLM  
Box T  
Avalon, California, 90704
