

March 6, 1995

Bill Nittler
Box 824
Mancos, CO 81328

Dear Bill,

We appologize for not getting back to you on your report. It has been very busy around here! Thank you for you reception report. This letter will verify reception of KHTK, a 50,000 watt directional day and night station. The antenna structure is a 5 tower array, and the main transmitter is a Harris DX-50.

Thanks again and good luck in the future!

Sincerely yours,

Matt Greer
Asst. Chief Engineer
