

KNCO RADIO 125
NEVADA COUNTY BROADCASTERS

212 W MAIN ST GRASS VALLEY CA 95945 916 272-3424

January 12, 1982

Dear Mr. Nittler:

This is to confirm that you did indeed receive KNCO on January 4, 1982. We are the major station in Nevada County, which is located just east of the state of Nevada. The county has a population of around 48,000 people.

Grass Valley, located in the foothills of the Sierras, was a gold rush boom town, and now has a population of around 7,000 people. Lumber is probably the major industry, although we do have an electronics firm, The Grass Valley Group, which is the largest single employer.

Thank you for letting us know that our 50 watt station reached all the way to Nucla, Colorado. Everyone here is pretty amazed. If you are ever in the Grass Valley area, please stop by and say hello.

Sincerely,

Cathy Sargent
Director of Public Relations
