Dear Mr. Nittler:

Your letter was received today and the contents therein noted.

This is to confirm the program and commercials as you outlined in our broadcasting for February 15th are correct.

It is amazing that a 250 watt signal can be picked up periodically across the country as it has been, and we are always interested in hearing these reports.

If there is any additional information needed, please get back to me.

Yours truly,

A. J. Richards
Station Manager
