

Date December 29, 1975

Dear Bill,

I'm happy to report that your reception of KSON on 3-9-70 at 12:39 PM PST is correct and verified. I also thank you very much for your report.

KSON has gone through 3 management, 2 ownership, and one format change since your reception over 5 years ago. KSON is now owned by Media Management Company, Inc. Our formats are now that good Ol' rock and roll.

We feel confident that our 2 month old business will be a smashing success. We plan relocation of our FM transmitter to a nearby mountain and an increased AM nitetime power of 2.5 Kw DA. Our daytime power will most likely remain 10 Kw DA. That's all the inside information.

Broadcast band DXing is far out and alot of fun. I used to do it until I got my ham ticket. Anyway thanks alot for the line and keep listening to our Monday morning equipment tests...I have them scheduled all through next year, mostly 3 AM until 5 AM our time.

Take care and congrats on your 6th rug rat.

Sincerely,

A handwritten signature in blue ink that reads 'Mark Sadacca'.

Mark Sadacca, Dir. Eng.
