

November 30, 2000

Bill Nittler
Box 824
Mancos, CO 81328

Dear Mr Nittler:

Thank you for your reception report of KTCT, 1050 kHz. Based upon your letter, I can confirm your report.

KTCT operates on 1050 kHz with a power of 50,000 watts from our transmitter site located next to the San Francisco Bay in Hayward, California. We use a directional antenna aimed in a westerly direction.

As you could tell from listening, we are a 24 hour sports station. We are also the originating station for the Oakland Raiders, one of our local NFL Football teams.

We also own and operate KNBR operating on 680 kHz with 50,000 watts into a non-directional antenna. KNBR is often heard across the world and I invite you to try to receive our broadcast.

Thank you for your report and Happy DX!

Sincerely,

Erick Steinberg
Director of Technical Operations
